The scanned copy of DD and soft copy of the filled registration form should be mailed to tdc@saeiss.com

4. Is it possible to withdraw from the competition and will I get the registration fee back?

A team can withdraw from the competition at any point of time, such teams should send letter to SAEISS requesting to withdraw (counter signed by Faculty advisor in the college letter head). The registration fees will NOT BE returned at any cost.

5. Will there be a test track for final evaluation?

Yes. The test track will be available for final completion.

6. Is there any virtual round?

There is no virtual round this year.

7. Will SAEISS conduct any workshop for this event and how many students can participate in the workshop?

Yes, SAEISS will conduct workshops at different locations across India before the design report submission. Only 10 students from each registered team is allowed to participate in the workshop. A team can attend only one workshop.

A separate engine workshop will be conducted, maximum of 2 student can participate in that.

8. Should the students have SAE membership for registering in the competition?

A team can register for participating in the competition without SAE membership. However, you have to apply for the membership before attending the workshop.

9. What are the contents delivered in the training program?

A comprehensive training covering tractor mechanics, transmission, steering, brakes, chassis, electrical, etc will be covered.

10. Who are the resource persons for training program?

Resource persons are from industry and academia. Details will be shared shortly.

11. Is there any concession for girls (registration fees)?

No concession for female candidates.

12. Can we use the same engine that they used last year? (Simpson SC108 17hp)

Teams participating for the second time can use the same engine.

13. What is the max weight?

Unballasted 700Kg Maximum

14. There are a few dimensions like the track width and the wheel base that are mentioned as a specific value. It is unclear as to whether this is the maximum values for those dimensions or the only value these dimensions.

Track width and wheel base should be equal to the specified value in the rulebook. (It's NOT the maximum value)
